

CHEMORESISTANCE

- a major treatment failure in oncology

PRELIMINARY PROGRAM

January 21, 2009

Istituto Nazionale dei Tumori, Milan, Italy

A one-day educational workshop in general oncology organised by the CHEMORES consortium (www.chemores.org).

CHEMORES
TUMOUR CHEMOTHERAPY RESISTANCE

PRELIMINARY PROGRAM

- 8.30 – 8.45 : General view J. Hansson
- 8.45 – 9.30 : General principles of chemoresistance
T. Tursz

Session I: Experimental models

- 9.30 – 10.00 : Experimental bases M. D'Incalci
- 10.00 – 10.30: A comprehensive system biology approach in research
- a basis for tomorrow clinical tools
V. Lazar
- 10.30 – 11.00: Coffee
- 11.00 – 11.30: Animal models S. Rottenberg
- 11.30 – 12.00: Proteomics aspects R. Lewensohn
- 12.00 – 12.20: Toxicity issues C. Peterson
- 12.20 – 12.30: Discussion

Session II: Clinical aspects

Melanoma

- 14.00 – 14.30 : General aspects on chemoresistance
M. Middleton
- 14.30 – 15.00: Perspectives in CHEMORES A. Eggermont
- 15.00 – 15.15: Discussion
- 15.15 – 15.45: Coffee

Lung cancer

- 15.45 – 16.15: ERCC-1 and cisplatin resistance J.C. Soria
- 16.15 – 16.45: Perspectives in CHEMORES F. Blackhall
- 16.45 – 17.00: Discussion
